

Input
Data

```
graph LR; A[Input Data] --> B[Neural Network]; B --> C[Output Data]
```

The diagram illustrates a sequential process. It begins with a rectangular box on the left containing the text 'Input Data'. A horizontal arrow points from the right side of this box to the left side of a second rectangular box in the center. This central box contains the text 'Neural Network'. Another horizontal arrow points from the right side of the 'Neural Network' box to the left side of a third rectangular box on the right. This final box contains the text 'Output Data'. All boxes have a black border and the text is in a large, black, sans-serif font.
